

SAHEED YUSUF

FRONTEND DEVELOPER | REMOTE & FREELANCE
07072936929 | Sahidwebstudio@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive websites and web applications using React, JavaScript, HTML, CSS, and Tailwind CSS. Seeking remote and freelance opportunities to build high-quality digital products while expanding my backend skills with Node.js, REST APIs, and databases.

EXPERIENCE

Frontend Developer | Remote 2024 – Present

- * Build responsive websites and web applications using React, JavaScript, Tailwind CSS, HTML, and CSS.
- * Develop reusable, component-based interfaces focused on usability, accessibility, responsiveness, and clean visual presentation.
- * Integrate external APIs and develop interactive features using JavaScript and React.
- * Translate business ideas and requirements into functional web experiences.
- * Plan, develop, test, debug, and deploy web projects independently.
- * Deploy applications using Vercel and manage source code with Git and GitHub.
- * Communicate project requirements and develop solutions based on client and user needs.
- * Continuously expand full-stack development skills through Node.js, Express.js, REST APIs, and database development.

- **Technical Skills:** React, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Express.js, REST APIs, Git, GitHub, API Integration, Responsive Web Design
- **Development Focus:** Frontend Development, Responsive UI Development, API Integration, Web Application Development, Backend Development
- **Tools & Technologies:** React, Tailwind CSS, Node.js, Express.js, Git, GitHub, Vercel, VS Code
- **Professional Interests:** Full-Stack Web Development, Modern Web Applications, SaaS Platforms, E-commerce Websites, and Client-Focused Digital Solutions

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Responsive Web Design

Backend:

Node.js, REST APIs, Express.js

Tools & Development:

Git, GitHub, Vercel, VS Code, API Integration, Debugging

Core Strengths:

Responsive UI Development, Component-Based Development, API Integration, Problem Solving, Performance Optimization, Client-Focused Development

SELECTED PROJECTS

IFEOLUWA Website

React | Tailwind CSS | JavaScript

A modern product website built for a chemical and household products business.

Developed a responsive product browsing experience using React and Tailwind CSS.

Added product categories, search, filtering, and sorting functionality.

Implemented a shopping cart experience with WhatsApp-based ordering.

Designed the website to provide a clean, modern, and mobile-friendly user experience.

Deployed the project using Vercel.

SahidMovie Likes

JavaScript | API | HTML | CSS

A movie discovery and watchlist application focused on Studio Ghibli films.

Integrated a movie API to retrieve and display movie information.

Built movie search and detail functionality.

Implemented a like/watchlist experience for saving favorite movies.

Created a responsive interface for browsing movie content.

Music Lyrics Anime Promo

React | Tailwind CSS | JavaScript

A creative music promotion website designed to showcase visual content and promotional services for upcoming artists.

Built a responsive promotional interface using React and Tailwind CSS.

Designed sections for showcasing lyric videos, animation, and music promotion services.

Focused on visual presentation, responsive layouts, and clear calls to action.

Deployed the project using Vercel.
